

DON'T BE LEFT WITHOUT POWER AGAIN!

Fully automatic propane or natural gas generators

Generac #5501 Main breaker 35 amps 8Kw with 8-circuit auto transfer switch	\$5,750.00 Installed
Generac #5502 Main breaker 45 amps 10Kw with 10-circuit auto transfer switch	\$6,600.00 Installed
Generac #5504 Main breaker 65 amps 17Kw with 14-circuit auto transfer switch	\$7,450.00 Installed
Generac #5744 Main breaker 100 amps 20Kw with whole house auto transfer switch	\$9,995.00 Installed

All generators are wired and installed by our licensed electricians to work automatically with your built-in electric panel. Pricing also includes propane or natural gas piping and placement pad.

****Based on generator installed within 25' of electrical service and gas main as well as no exterior obstructions for pad placement. ****

You will **always** have power and electricity through your regular outlets, including heat, hot water, freezer, washer, dryer, stove, lights, plugs, TV, computer, pumps, etc.

We also offer installation of portable gasoline generators including 10-circuit manual transfer switch, twist lock receptacle located in garage and 20' flexible cord for connection to generator.

8000Kw Generac generator \$2,385.00

Generator provided by homeowner \$975.00
